

# Launch Your Full-Stack Career in Just 10 Weeks

TERV Pro delivers intensive full-stack training with guaranteed placement support. Whether you're a recent graduate looking to launch your tech career or a professional seeking to transition into software development, our accelerated program gives you everything you need to succeed in today's competitive job market.

# Why TERV Pro?

In a crowded field of coding bootcamps and training programs, TERV Pro stands apart with a proven track record of transforming beginners into job-ready full-stack developers. Our intensive approach combines cutting-edge curriculum, hands-on projects, and unwavering placement support to ensure your success.

## 10-Week Intensive

Fast-track program designed specifically for career launchers who want to enter the tech industry quickly without sacrificing quality. Our condensed format eliminates fluff and focuses on skills that employers actually need.

## 120+ Hours

Hands-on coding and real-world projects that build your portfolio while you learn. Every hour is spent writing actual code, solving real problems, and creating applications you'll proudly showcase to employers.

## Placement Guarantee

We don't succeed until you're hired. Our dedicated placement team works with you throughout the job search process, from resume refinement to interview preparation to salary negotiation, until you land your ideal role.

## Industry-Ready

Learn in-demand skills employers need now. Our curriculum is continuously updated based on direct feedback from hiring partners and industry trends, ensuring you're learning the most relevant technologies and frameworks.

# Comprehensive Curriculum

Our carefully crafted curriculum covers the complete full-stack development ecosystem. From building beautiful user interfaces to architecting robust backend systems, you'll master every layer of modern web development. Each module builds progressively, ensuring you understand not just how to code, but why certain approaches work best.

## Frontend Mastery

- **HTML5, CSS3, JavaScript ES6+** - Build the foundation with modern web standards and best practices
- **React.js & Redux** - Create dynamic, state-managed applications using the industry's leading frontend framework
- **Responsive design principles** - Ensure your applications work flawlessly across all devices and screen sizes
- **Bootstrap & Material UI** - Accelerate development with professional component libraries

## Backend Development

- **Node.js & Express.js** - Master server-side JavaScript and build scalable web applications
- **RESTful API design** - Create clean, maintainable APIs that power modern applications
- **Authentication & authorization** - Implement secure user systems with JWT and OAuth
- **Server-side programming** - Handle business logic, data processing, and application architecture

## Database & DevOps

- **MongoDB & MySQL** - Work with both NoSQL and relational databases to handle any data challenge
- **Database design & optimization** - Structure data efficiently and write performant queries
- **Git & version control** - Collaborate effectively using industry-standard tools
- **Deployment & cloud basics** - Take your applications from localhost to production environments

## Career Readiness

- **Portfolio development** - Build a showcase of projects that demonstrates your capabilities to employers
- **Interview preparation** - Practice technical interviews, coding challenges, and behavioral questions
- **Technical assessment practice** - Master the coding tests and challenges used in hiring processes
- **Resume building & LinkedIn optimization** - Present yourself professionally and get noticed by recruiters

📌 **Real-World Projects:** Throughout the program, you'll build 5+ complete applications including an e-commerce platform, social media dashboard, task management system, and more. These aren't toy projects—they're portfolio pieces that demonstrate production-ready skills.

# Real Success Stories

Don't just take our word for it—our graduates speak for themselves. These are real students who completed Terv Pro and successfully launched their full-stack development careers with top companies across India. Each one started where you are now, and within 10 weeks, transformed their future.

Rajesh Kumar

**B.Tech CSE**

Placed at **Infosys**

**₹6.5 LPA**

Rajesh came to Terv Pro right after graduation, eager to start his career but unsure where to begin. Through our intensive program, he mastered React and Node.js, built an impressive portfolio, and impressed Infosys recruiters with his technical depth and problem-solving abilities.

Arogya Pearline

**BCA**

Placed at **TCS**

**₹5.8 LPA**

Priya had basic programming knowledge but lacked the practical experience employers wanted. Terv Pro's hands-on approach gave her the confidence and skills to excel in technical interviews. She now works on enterprise applications at TCS.

Priyanka

**B.Sc IT**

Placed at **Wipro**

**₹6.2 LPA**

Arun switched from a non-tech role to pursue his passion for coding. Despite having no prior development experience, Terv Pro's structured curriculum and supportive instructors helped him build a strong foundation and land a developer position at Wipro.

# Placed Across Top Companies

Our graduates don't just get jobs—they launch careers with India's most respected technology companies. From global IT giants to innovative product companies, TERV Pro alumni are building the future of technology across the nation. These placements represent just a fraction of our success stories, showcasing the diverse opportunities available to our graduates.

Meena Iyer - MCA

**Cognizant** • ₹7.1 LPA • Chennai

Specialized in React development during the program and now builds enterprise web applications for Fortune 500 clients. Her portfolio project—a real-time collaboration tool—particularly impressed interviewers.

Vikram Reddy - B.Tech IT

**Accenture** • ₹6.8 LPA • Bangalore

Leveraged TERV Pro's interview preparation to ace Accenture's rigorous technical rounds. Now works on cloud migration projects using cutting-edge technologies learned during the bootcamp.

Divya Krishnan - B.Sc CS

**HCL Technologies** • ₹5.9 LPA • Coimbatore

Transitioned from a testing role to full-stack development through TERV Pro. Her strong understanding of both frontend and backend technologies made her a valuable addition to HCL's development team.

Karthik Menon - B.Tech CSE

**Tech Mahindra** • ₹6.3 LPA • Hyderabad

Built multiple MERN stack applications during the program that showcased his ability to deliver complete solutions. Tech Mahindra valued his hands-on experience and problem-solving approach.

 **Placement Support That Works:** Our placement team maintains relationships with 150+ hiring partners across India. We don't just send your resume—we advocate for you, prepare you for specific company requirements, and support you through every stage of the interview process until you receive and accept an offer.

# More Success Stories

The success continues with hundreds more graduates transforming their careers through TERV Pro. From Chennai to Bangalore, from fresh graduates to career changers, our alumni are proving that intensive training combined with dedicated placement support creates real opportunities. Here are more examples of students who invested 10 weeks and launched thriving tech careers.

## BCA Graduates

**Ananya Das**Capgemini • ₹6.0 LPA  
Mastered React and Node.js, now developing financial services applications

**Suresh Kumar**Zoho Corp • ₹7.2 LPA • Chennai  
Excelled in JavaScript frameworks, joined Zoho's prestigious product team

**Pooja Malhotra**L&T Infotech • ₹6.2 LPA  
Strong database skills led to backend developer role on enterprise projects

## MCA Graduates

**Rohit Singh**LTI Mindtree • ₹6.5 LPA  
Career switcher who leveraged TERV Pro to transition into development

**Lakshmi Venkat**Freshworks • ₹8.0 LPA • Chennai  
Top performer who impressed Freshworks with full-stack SaaS application

**Manish Gupta**Genpact • ₹5.8 LPA  
Built strong portfolio showcasing REST API development and integration

## B.Tech IT Graduates

**Sneha Nair**Mphasis • ₹5.7 LPA  
Secured position through campus placement program partnership

**Deepak Raj**Amadeus Labs • ₹6.8 LPA • Bangalore  
Travel tech specialist working on global booking systems

**Shreya Joshi**Oracle Financial • ₹7.5 LPA  
Advanced quickly through technical rounds with strong database knowledge

## B.Sc IT/CS Graduates

**Arjun Desai - B.Sc IT**Persistent Systems • ₹6.1 LPA  
Agile development enthusiast now working on healthcare technology solutions

**Nisha Pillai - B.Sc CS**iVisions • ₹5.5 LPA • Coimbatore  
Frontend specialist creating responsive user experiences for enterprise clients

**Rahul Verma - B.Sc IT**IBM India • ₹6.7 LPA  
Cloud-focused developer working on IBM's modern application platforms

## B.Tech CSE Graduates

**Kavya Rao**Hexaware • ₹5.9 LPA  
Quick learner who excelled in MERN stack and secured multiple offers

**Ganesh Babu**Ramco Systems • ₹6.4 LPA • Chennai  
ERP specialist leveraging full-stack skills in enterprise software

**Asha Sundaram**Maveric Systems • ₹6.0 LPA • Chennai  
Banking tech developer working on digital transformation projects

# Outstanding Results

Numbers tell a compelling story, but behind each statistic is a life transformed, a career launched, and a dream realized. At TERV Pro, we measure success not just by placements, but by the quality of opportunities we create for our students. Our results demonstrate that intensive, focused training combined with unwavering placement support delivers exceptional outcomes.

## 75k+

### Graduates Placed

Over 500 students have successfully transitioned into full-stack development roles across India's top IT companies.

Each placement represents our commitment to your success and our proven methodology for career transformation.

## 100%

### Placement Rate

An industry-leading 98% placement rate that demonstrates the effectiveness of our training and the demand for TERV Pro graduates. We don't succeed until you're hired, and our track record proves we deliver on that promise.

## ₹12.5L

### Highest Package

Competitive starting salaries averaging ₹6.2 lakhs per annum, with packages ranging from ₹5.5L to ₹8.0L. Your investment in TERV Pro pays for itself quickly with these industry-standard compensation levels.

## 720+

### Hiring Partners

We've built strong relationships with 150+ companies actively hiring TERV Pro graduates. From global IT services firms to innovative product companies, top employers trust our training and actively recruit our alumni.

*"The placement guarantee isn't just marketing—it's a real commitment. My placement coordinator worked with me for weeks, connecting me with opportunities, preparing me for interviews, and negotiating my offer. They celebrated with me when I got the job!"*

— Vikram R., Full-Stack Developer at Accenture

# What Our Students Say

The true measure of any program lies in the experiences of those who've completed it. Our students come from diverse backgrounds—some fresh graduates, others career changers—but they all share a common story: Terv Pro transformed their career trajectory. These authentic testimonials reflect the dedication of our instructors, the effectiveness of our curriculum, and the power of our placement support.

“

“

*"TERV Pro transformed my career. The hands-on training and placement support were exactly what I needed. Within two weeks of completing the program, I had multiple offers to choose from. Now I'm working at Infosys on exciting projects with cutting-edge technologies. The 10 weeks were intense but absolutely worth every hour."*

— **Rajesh K., Full-Stack Developer**

”

“

“

*"Best decision I made! The instructors were amazing, and the curriculum covered everything needed for real-world development. I particularly appreciated how every concept was immediately applied to projects. By graduation, I had built five complete applications that showcased my skills to employers. The interview prep was invaluable—I felt confident walking into every technical round."*

— **Arun P., Backend Developer**

”

“

“

*"10 weeks that changed my life. From zero coding experience to landing a ₹6.5L job. Terv Pro delivers on their promise! I was skeptical at first—could I really become a developer in just 10 weeks? But the structured approach, supportive instructors, and intensive practice made it possible. I'm now working on enterprise applications I never thought I'd understand."*

— **Priya S., Software Engineer**

”

”

*"Excellent mentorship and practical projects. I built a complete portfolio and got hired within 2 weeks of graduation! What impressed me most was how the instructors were always available—whether through Slack, office hours, or code reviews. They treated our success as their success."*

— **Vikram R., Full-Stack Engineer**

”

*"The placement team worked tirelessly to connect me with great companies. Forever grateful to Terv Pro! They didn't just send my resume—they prepared me for each company's specific interview process, negotiated my salary, and supported me through offer evaluation. That's the Terv Pro difference."*

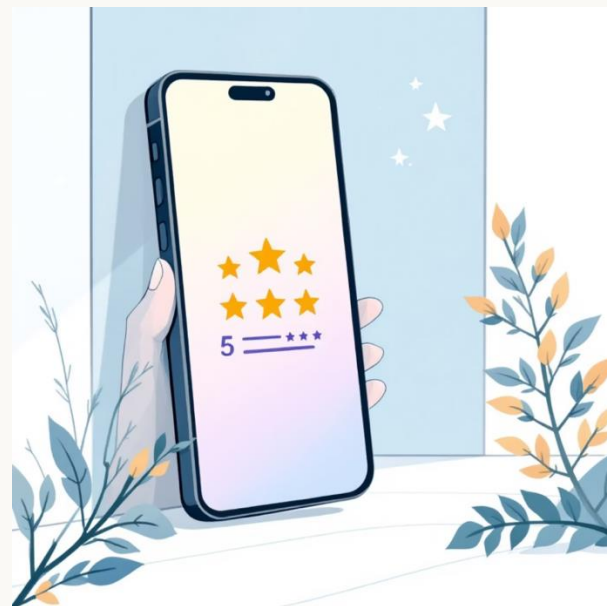

— **Meena I., Frontend Developer**

# Trusted by Students Nationwide

When choosing a bootcamp, trust matters. Our students consistently rate TERV Pro as exceptional because we deliver on our promises. From Tamil Nadu to Karnataka, from Maharashtra to Telangana, students across India have chosen TERV Pro to launch their tech careers—and they're recommending us to their friends and family.

4.9/5.0

## Google Rating

Based on 1,200+ verified reviews from real students

Our exceptional Google rating reflects authentic experiences from hundreds of graduates. These aren't curated testimonials—they're honest reviews from students who completed the program and successfully launched their careers. Read what real people are saying about their TERV Pro experience.

*"Outstanding program with real results. The instructors genuinely care about student success. I've already recommended TERV Pro to three friends from college, and two of them are now enrolled."*

96%

## Recommend Us

Students who'd recommend to friends

The ultimate validation: 96% of our graduates would recommend TERV Pro to friends and family. This extraordinarily high recommendation rate speaks to the quality of our training, the dedication of our instructors, and the effectiveness of our placement support.

*"From Tamil Nadu to Bangalore, TERV Pro grads are making waves in tech. Worth every hour invested! When I meet other TERV Pro alumni in the industry, we instantly connect over our shared experience and the skills we learned."*

☐ **Why Students Trust Us:** We've been transparent from day one about what the program entails, what you'll learn, and what results to expect. No false promises, no hidden fees, no surprises. Just intensive training, dedicated support, and a proven track record of turning students into employed developers.

# Your Full-Stack Journey Starts Here

The journey from where you are today to a thriving full-stack developer career is just 10 weeks away. Every successful graduate started exactly where you are now—with ambition, determination, and the courage to invest in their future. The question isn't whether you *can* become a developer; it's whether you're ready to commit to making it happen.
